and Oral Communication

Self-Reflective and  
Growth-Motivated

## ABOUT TRIA HEALTH

Tria Health is an innovative chronic condition management (CCM) company that employs a team of pharmacists who provide telephonic clinical services that includes review of chronic conditions, critical evaluation of medication therapies, and optimization of medication to achieve individual patient outcomes. Tria Health promotes a collaborative and team based approach with clinicians working together to strengthen their own skills as well as providing optimal comprehensive patient care.

The average patient with Tria Health has 4-5 chronic health conditions, is treated with 10-11 medications, and sees 2-3 providers. The full patient profile is reviewed at each consultation and health conditions can include cardiology, dermatology, endocrinology, gastroenterology, geriatrics, hematology/oncology, infectious disease, internal medicine, men and women's health, nephrology, neurology, pediatrics, psychiatry, pulmonology, and rheumatology, to name a few.

Additional programs provided include tobacco cessation, weight loss management, pharmacogenomics, and remote patient monitoring.
